

Master in Architecture and Urbanism - Spatial Planning Module

Faculty of Architecture

Czech Technical University in Prague

EVALUATION REPORT

After an in-depth examination of its academic curriculum and teaching pedagogy, the Master Programme in Architecture and Urbanism - Spatial Planning Module, offered at the Institute of Spatial Planning, Faculty of Architecture, Czech Technical University in Prague has been conferred the AESOP (Association of European Schools of Planning) Certificate of Quality.

The Master Programme in Architecture and Urbanism - Spatial Planning Module delivered at the Czech Technical University in Prague has been assessed by two assessors of the Quality Recognition (QR) Committee appointed by the Chair of the AESOP Excellence in Education Board (EEB). The EEB certifies that the above programme fulfils the Quality Recognition criteria.

Quality in Planning Education

The Master Programme in Architecture and Urbanism - Spatial Planning Module delivered at the Czech Technical University in Prague enriches students' knowledge in the field of regional policy and development, geography and social ecology, and skills in applied statistics, spatial analytics, ICT and GIS. In this way, the Module provides the students of the study programme Architecture and Urbanism an added value, extending their professional capabilities to the field of spatial planning. Additionally, it brings together the following aspects of quality in planning education:

Programme Curriculum and Identity

- Acknowledgement of professional ethics through applied approach (e.g., studio course occasionally attended by real-world stakeholders).
- A cross-disciplinary approach, seen not only in the structure of the courses offered in the Module but also in collaboration with experts in complementary fields from other universities.

QUALITY RECOGNITION AESOP

- A comprehensive yet well-interlinked and content-coordinated system of subjects.

Principles of Pedagogy

- Advanced models for providing the students with a broad research competence – from the basic skills for conducting fundamental research to those inherent in applied research, and the dissemination of research results.
- Stimulation of the studio project as a tool for practical reasoning and practical judgement. Strengthening active and independent learning through an array of diverse student tasks (essays, seminars, studio work, thesis).
- Best practice example of student/alumni/employer's engagement by enabling its members to develop stronger relations with the university's community, find mentorship and gain access to new professional networks.

The AESOP Certificate of Quality and this Evaluation Report are valid for a period of six years (2023-2029).
